Forecast For Northwest England
Issued by Met Office Exeter
at 1600 on Tuesday 30 Nov 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Heavy rain this evening followed by blustery showers later.

This Evening and Tonight:
Overcast with outbreaks of rain this evening, with the heaviest rain likely over the Cumbrian Fells. The rain will clear after midnight leaving scattered blustery showers, these heavy in places and mixed with hail, accompanied by a strong, gusty wind. Minimum temperature 4 deg C (39 deg F).

Wednesday:
Sunny spells and showers throughout the day on Wednesday. The showers still heavy and mixed with hail at times, and wintry over the highest ground. Feeling cold in the wind. Maximum temperature 7 deg C (45 deg F).

Outlook for Thursday to Saturday:
Largely fine, dry and cold Thursday. Rain and hill snow Thursday evening then dry and bright Friday. Further rain Friday evening, then an unsettled and very windy day on Saturday.
